

Thirty six years ago, Arthur Glick was frustrated to learn that if a Jr. 3- 4 athlete did not qualify to the Championships their race season was over. There were no alpine races scheduled in New York State for this age class if you didn't qualify on to a Championship event.

Arthur reached out to Dave Wenn, the Greek Peak Race Director at that time, and together they conceptualized one of New York State's most popular race series, the Kandahar. Their purpose was to create an opportunity for athletes that did not make championship teams to continue racing. In that first year 80 athletes competed.

Today, the Kandahar continues to grow and is now 3 regional Festivals and a Championship race which qualifies 36 athletes to compete in the Francis Piche Invitational at Gun Stock, New Hampshire. This year, 680 athletes raced in the Kandahars.

The Glick family continues their commitment to ski racing in New York State as the proud sponsors of the NYSSRA Kandahar Championship Team. Todd and Arthur, manage the family auto dealships in Monticello, NY and have become the fastest growing and largest truck parts exporters in the US. Todd and Liza are active in the Alpine Race Program at the National Sports Academy and their children, Skylar and Camryn are avid ski racers.

Congratulations to the Kandahar Team and good luck at the Francis Piche Invitational. Go New York!
